My dear Sushanta,

Father has told me that you are wasting Sunday hours by using android phone. You are doing a great mistake. You must remember that Sunday hours are very important to improve your study. If you continue it for some weeks, it will have an addiction. It will affect on your mind and eyes and you will lose interest from your study. So I suggest you to play cricket and football instead of using android phone. You can make a habit of reading newspaper and story book. You will use your mobile phone as required.

I hope you will use your valuable time in propose place and waste Sunday hours making a good habit.

Sushanta Saha

yours affectionately

Raypur

Elder brother
