

Write a Short Paragraph on "Your Experience of a Moonlit Night"

MY EXPERIENCE OF A MOON LIT NIGHT

The night in which the full moon shines brightly in the sky is called a moon lit night. This is a symbol of joy and beauty. A lover waits for the natural beauty of this night. It has much impact on human mind. It refreshes our mind and changes our mind into poetic mind. The beauty of a moonlit night inspires the poets to compose a poem. In the autumn the sky remains cloudless and moon looks like a big silver disc. Silvery rays of the moon flood the earth and reflect on seas, rivers, ponds, and hills. It sparkles like a diamond when the moon pours her light on the waves of water. People feel great joy and children play under the open sky. Grand-parents tell feeble to the grand-son and daughter. Women can make their babies sleep singing the songs of stars and moon. It is really a blessing of nature and God.
